reply There are 2 files to update in the folder. I believe, the older version is the 1.0 release and the newer is the 2.0 release. The autoportrait plugin 1.0 is a beta version. What it means by "there are other files to update is that the plugins now have to be re-named due to the release of the 3.0 version. The 2.0 version should not have any problems with the new version of adobe photoshop. The easiest way is to download the file by right clicking on it and selecting save as. Then you should have no problems. I hope this helps you. 82157476af
